Mini-asphalt plant (Asphalt Recycler) RA-800

The Polish company "TICAB" producing and selling asphalt road repair and maintenance equipment

The equipment of our production is operated in 54 countries of the world, receiving positive feedback from users.

Mini asphalt plant (asphalt recycler) RA-800 with its own motor and hydraulic drive is a mobile complex for asphalt production / processing. This equipment can produce 800 kg of high quality asphalt mixture per every 15-20 minutes from asphalt scrap, milling, bitumen, crushed stone, sand, as well as allows you to heat up the working material and work with it on site for paving / replacement of asphalt.

SPECIFICATIONS:

1. Diesel engine with electric starter (10hp).
2. Recycler productivity - 1800 - 2000 kg/hour.
3. Drum capacity 800 kg(0,6 m3).
4. Products heating temperature - 120 – 180°C.
5. Products heating time up to 15-20m (150°C).
6. Fuel consumption - up to 13 l/hour.
7. Fuel tank for 100l (equipped with a fuel level indicator).
8. Power of burner 100-130 KW.
9. Burner diesel powered by generator with a voltage stabilization system.
10. The recycler drum is equipped with heating distribution system (on the whole surface).
11. Side flaps construction provides light access to servicing drum rollers.
12. Control panel with indicators and at least one 220V power outlet on this panel (can be used for charging tools or lighting).
13. Control panel, power block equipped with locks protection.
14. Direct access to power block (maintenance available).
15. Burner provided with protection against pumping fuel into the drum during the burner work.
16. Mechanical front drum loading.

Overall dimensions: D 380sm / W 220sm / H 235 sm. (On a frame, without a trailer)

Price*: 36 520 € netto (without a trailer)

40 470 € netto (on a trailer)

*FCA, Rzeszow, Poland

Production time is 20-30 calendar days from the date of prepayment.
